Colortrac SmartLF Ci 40

Professional SmartLF Scanning Solutions for:

ARCHITECTS | ENGINEERS | CONSTRUCTION | GIS | BUILDING SERVICES
FACILITIES MANAGEMENT | TECHNICAL & CAD DRAWING OFFICES

- ▶ 600dpi optical with 9600 maximum resolution
- ▶ 40" image width – suits A0, E and architectural E-size scans
- ▶ Walk-up scanning and copying from intuitive touchpad
- ▶ Instant productivity from power-on, no warm-up, no waiting
- ▶ Intuitive face-up paper feed with automatic size detection
- ▶ Convenient front document exit for easy retrieval
- ▶ High productivity scan speeds with excellent image quality
- ▶ Unique ISIS certified wide format EDM document capture
- ▶ Easy Plug 'n Play set-up with high speed USB 2.0
- ▶ Network-ready – Ethernet 1000 connectivity
- ▶ ENERGY STAR® qualified – powers down when idle
- ▶ SmartLF All-in-One Scan and Copy software included
- ▶ Compact, lightweight, transportable
- ▶ Affordable value for money!

Awarded 4½ stars by BERTL, the SmartLF Ci40 is a fast, accurate and affordable 40" technical document scanner offering easy, face-up, instant-on, walk-up scanning and copying to any workstation or printer across a network.

The SmartLF Ci 40 walk-up scanner offers professional A0 or Architectural E-size scan and print productivity at the touch of a button. Supplied with SmartLF All-in-One monochrome, grayscale or color scan and copy software, you can quickly and easily scan to file, email (PDF) or any printer. Its high definition optical resolution will capture the finest details of all your technical drawings and maps with an unrivalled combination of sharpness, accuracy and bright colours.

Professional SmartLF Scanning Solutions for ARCHITECTS | ENGINEERS | CONSTRUCTION | GIS | BUILDING SERVICES | FACILITIES MANAGEMENT | TECHNICAL & CAD DRAWING OFFICES

**Because you need large format scanning solutions that work for you:**

- ▶ The Ci 40 includes straightforward SmartLF All-in-One Scan and Copy software
 - ▶ Combines wide format scanning and copying in a single easy to use program
 - ▶ Has full compatibility with wide format printers through standard Windows drivers
- ▶ The acclaimed^{*} ScanWorks professional productivity scanning software is an optional extra
 - ▶ Uses "the best"^{**} Intelligent Adaptive Thresholding to enhance/restore drawing detail
 - ▶ Its unique one-step scan process is simply the fastest, most productive way to scan

 Our Business is Your Image

The award-winning SmartLF Ci40 is the only large format scanner with certified ISIS support.

The industry-leading SmartLF Ci 40 range of large format technical document scanners are affordable 40" wide, ENERGY STAR qualified CIS devices offering high quality imaging, fast Ethernet 1000 connectivity and instant-on, walk-up operation from LED long-life illumination.

Ideal for AEC, CAD and GIS technical documents and office color graphics, photographs, maps, etc.

What are the benefits of Colortrac Ci 40 CIS scanning technology?

SmartLF CIS (contact image sensor) technology captures **the finest image detail** in technical documents and maps.

SmartLF Ci 40 wide format scanners use the latest CIS technology to provide valued performance benefits, including scan speed, image quality, resolution and low power consumption. Unlike all other scanners, its unique paper path returns documents to the front, allowing it to be placed against a wall, saving space.

The Ci 40 uses 600dpi CIS sensors with higher resolving power and geometric accuracy than CCD technology. Resolving power is how well a scanner sees thin lines and edges; geometric accuracy is a measure of the spatial accuracy of the image against the original document.

If you need the best possible black & white or color reproduction in terms of line definition and accuracy in technical documents, (such as AEC / CAD drawings, maps etc), then a SmartLF CIS scanner is the "smart" choice.

SmartLF Ci 40's use of CIS sensors and LED lighting for instant-on illumination make it compact and lightweight. If you want to be mobile and switch on and start scanning immediately, SmartLF CIS technology will allow you to do this.

The new SmartLF Ci 40 series provides exceptional monochrome performance with very sharp, clean black & white images; excellent greyscale reproduction; and attractive color copying at high scan speeds suitable for all your needs.

Scanner accessories

Floor stand with paper catch basket

Floor stand

Minimizes the installed footprint of the scanner and positions the document feed at a comfortable and convenient height for most users to work at.

Paper catch basket

For floor stand. A handy repository for documents after they are removed from the front of the scanner.

PC / flat screen mounting

For floor stand. Combines a SmartLF scanner with a PC, screen and keyboard to create a self-contained and practical scanning workstation.

Software

SmartLF All-in-One (included)

Easy to use scanning and copying software designed for nonspecialists. It includes all essential functions such as scan to file (PDF, TIFF, JPG) and scan to copy (any Windows printer).

ScanWorks (optional)

Powerful scan to file software with a unique "scan-it-once" ability to ensure that top quality scanned images are produced in the least amount of time.

ScanWorks requires a minimum of scanner activity as **ALL** image adjustment can be made from just one scan of the document. This gives you the fastest workflow and productivity in technical document scanning today. Its interactive adaptive thresholding for flexible real-time image restoration and enhancement is "a joy.... provides the best results." (Cadalyt April 2007)

CopySmart (optional)

Simple to use but advanced professional scan to copy software with dedicated Colortrac printer driver support for market leading printers.

CopySmart gives high definition color scan and print productivity. Its color and paper management controls include quick and simple user ICC profiling, color adjustment, image cropping, paper economy and predictable copy sizing to ensure economic, professional quality color copies every time.

ISIS certified driver

Industry standard ISIS scanner driver available for EDC/EDM applications.

CLASP software (optional)

(Colortrac Approved Software Products). Third party software from leading independent software vendors.

Universal Repro Stand with PC / flat screen mounting.

Universal Repro Stand

A floor stand for use with popular large format printers. The scanner is held above the printer to minimize the combined footprint and create a practical scan-to-copy workstation.

There are three SmartLF Ci 40 high definition large format scanner models with performance levels and features optimized for different applications. If your requirements change, the m and c models can be upgraded at your premises quickly and easily using our simple scanner upgrade process via email.
